

# Dr. Mar Theophilus School

Issue#2, June 2025

## Trailblazers Junior

Your journey is unique.....

# *Fun with Collage*

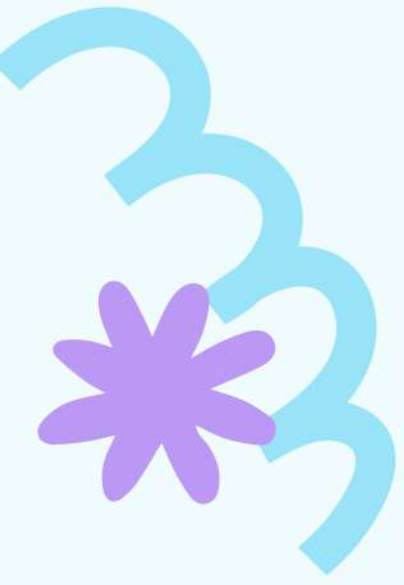

*Today, our class worked together on a collage activity! We cut, glued, and created something beautiful. Everyone helped each other and shared materials. We learned that teamwork makes everything more fun!*

# **BEST** Out Of **Waste**

*The Pre-primary Section students displayed their creative arts by making various useful items from waste material. The activity aimed to encourage children to think creatively about reusing materials and reducing waste.*

# CIRCLE TIME

RIGHT!

*Our LKG students enjoyed Circle Time today! They learned new things, shared ideas, and had fun together.*

*From stories to rhymes, they explored and discovered new concepts in a playful way.*

*Circle Time is always a highlight of the day!*

*Our LKG students enjoyed a craft activity making creative napkin folds, while UKG students had fun creating cute dog faces using origami paper, showcasing their fine motor skills and imagination. Both activities encouraged creativity and learning through hands-on fun!*

*Fine motor skills  
development using cloth*

Handkerchief Fold

Handkerchief Fold

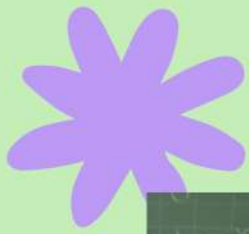

Handkerchief Fold

# *Father's Day Craft Activity*

*The pre primary students created a handmade Father's Day card with a special message written on it expressing gratitude and love for their father. The card was made to make Father's Day special and memorable.*

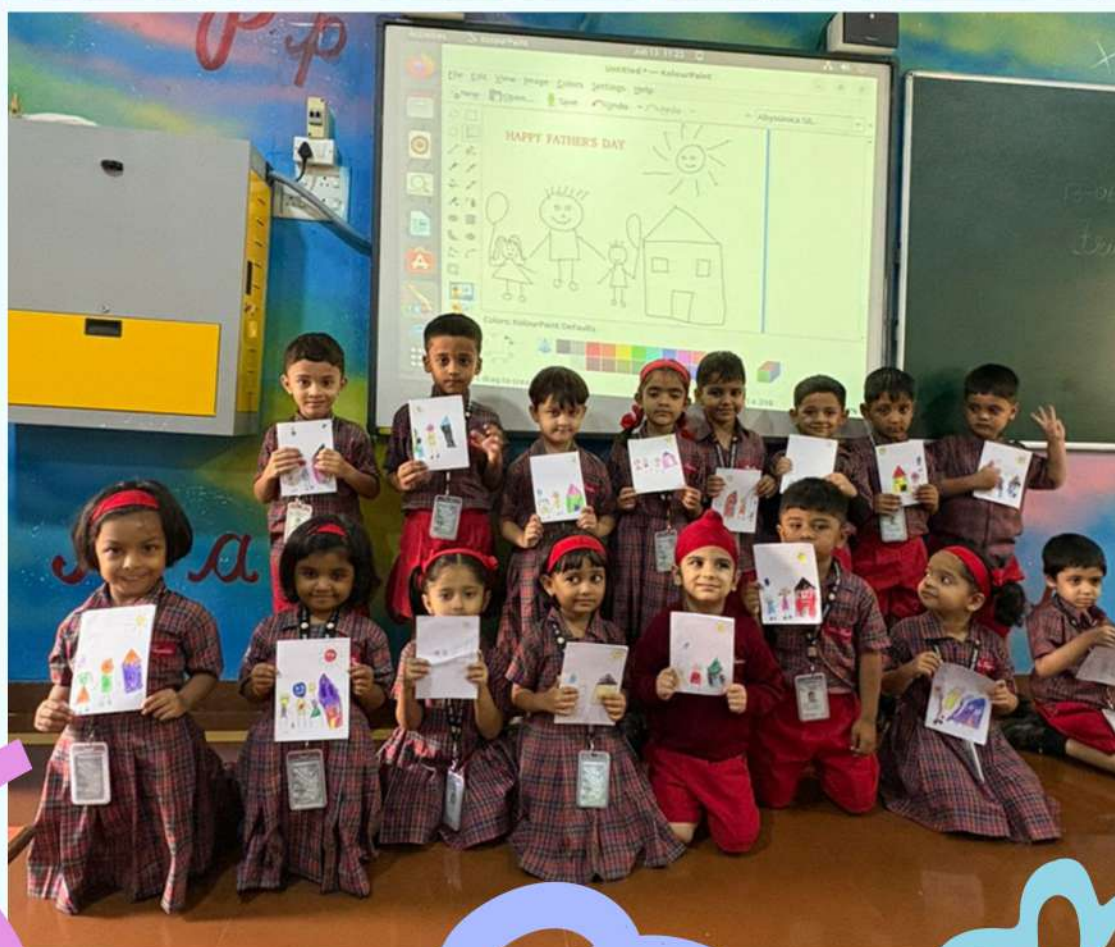

# MUSIC LESSONS

*Our pre-primary students had a blast in music class! They sang, danced, and played instruments, exploring the joy of music. With every beat and rhythm, they discovered new sounds and had a wonderful time!*

# Counting Activity

ONE

TWO

THREE

FOUR

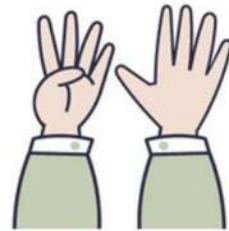

FIVE

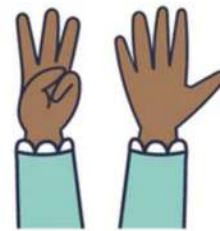

SIX

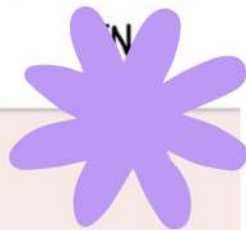

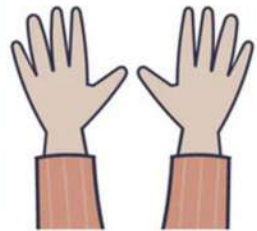

SEVEN

NINE

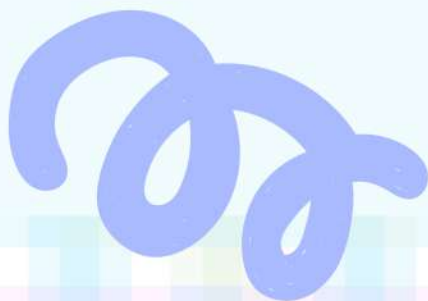

EIGHT

light&salt

*Introduction to number 2 by counting various objects. Fun and learn method.*

*Our UKG students enjoyed indoor games like puzzle-solving and matching, developing problem-solving skills and having fun!*

# Colour recognition Activity

*Pasting activity for red colour. Children pasted the heart cutouts on the ice-cream sticks. Pasting is fun and develops the fine motor skills. Cutouts of the specific colour can be an effective way to create visual differentiation in children.*

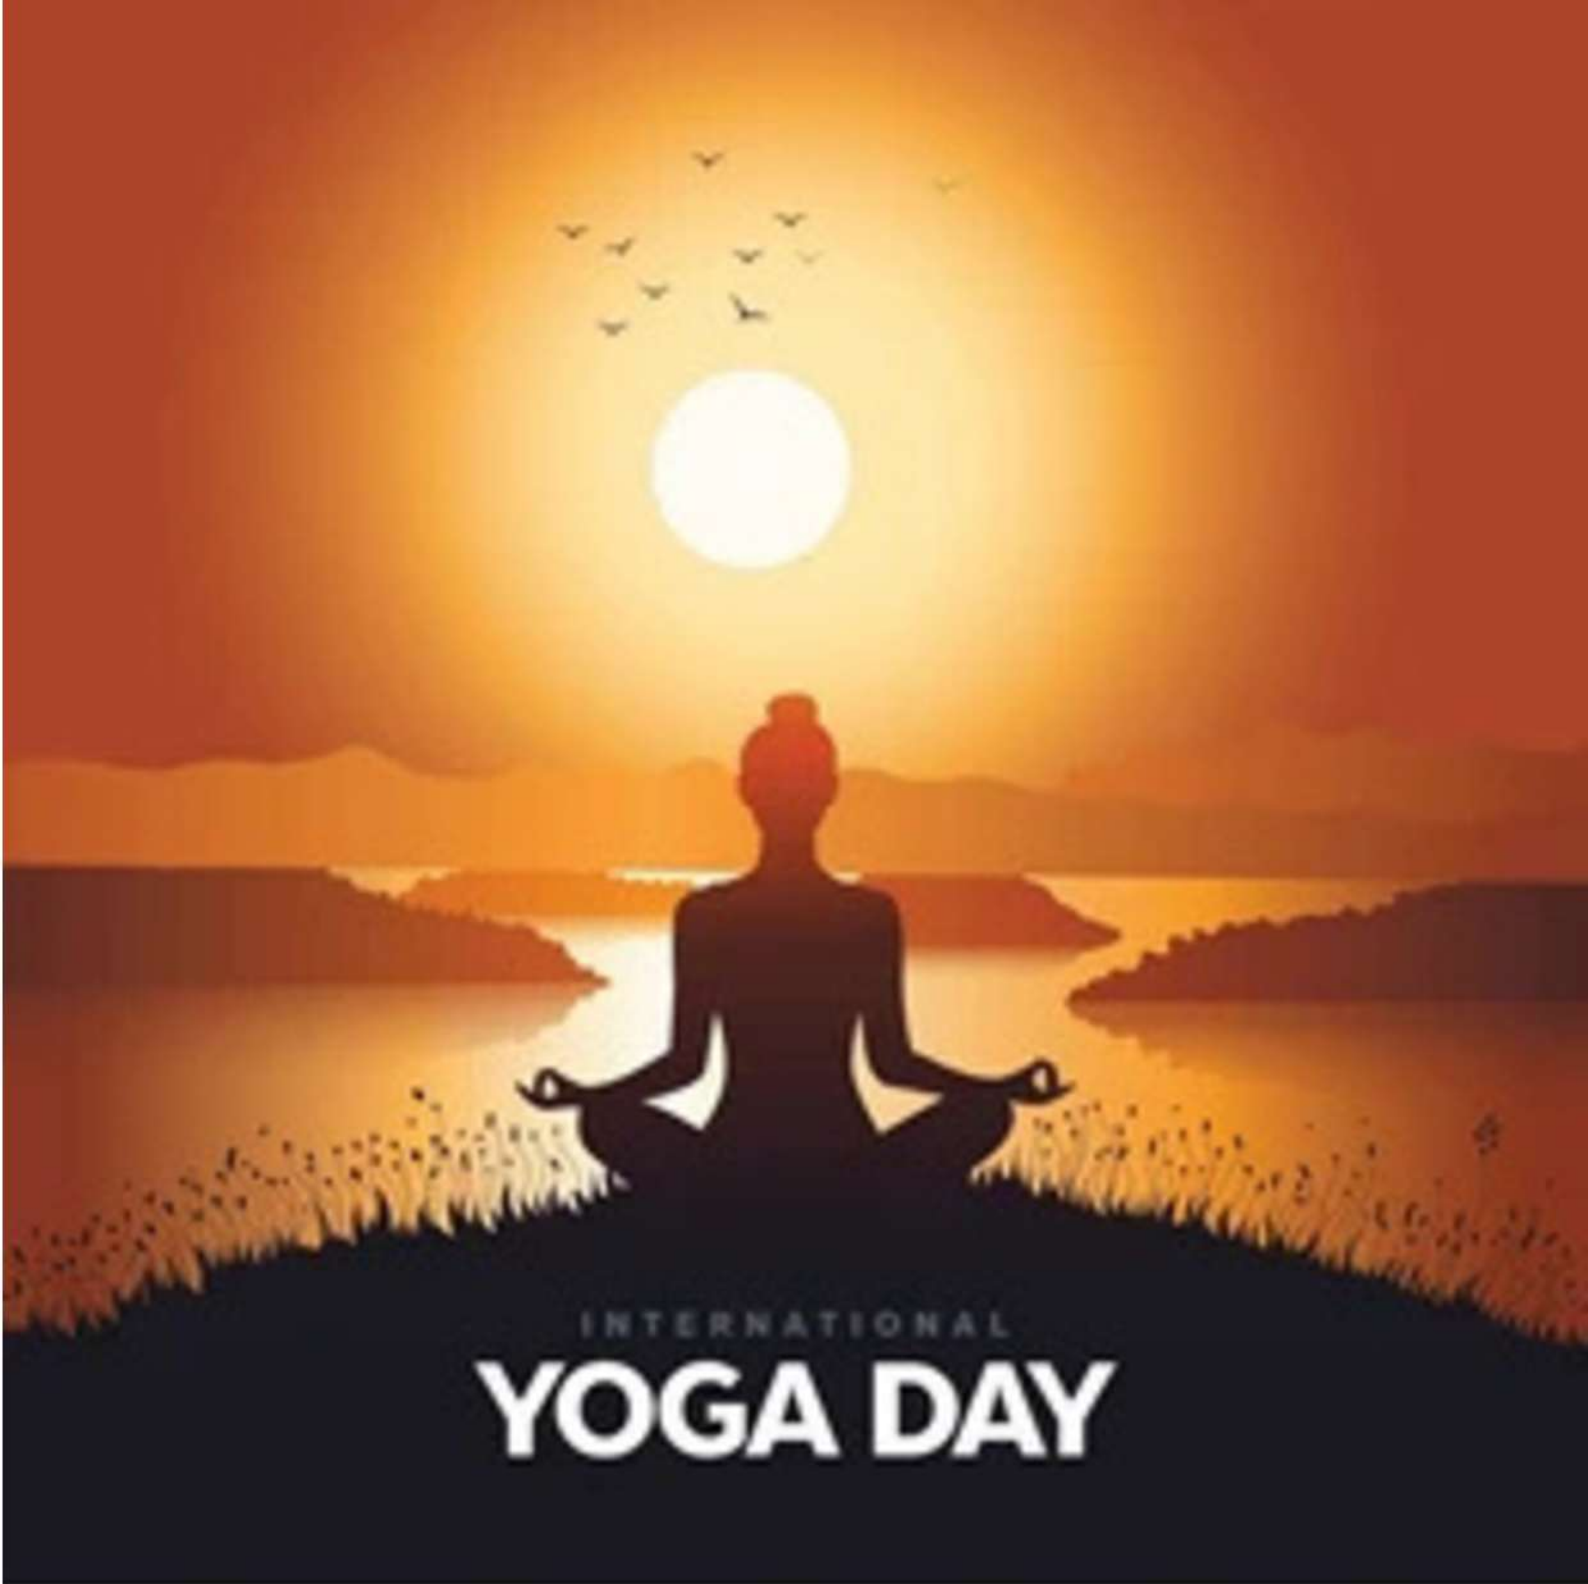

*On International Yoga Day, our preschoolers celebrated the joy of yoga, learning poses, breathing techniques, and mindfulness to promote physical and mental well-being. Through yoga, they're developing healthy habits and a positive relationship with their bodies from a young age!*

# *Palkhi Celebration*

*Our students joyfully took part in the Palkhi celebration, carrying the palkhi and singing devotional songs. They had a great time celebrating this special tradition with enthusiasm and devotion.*

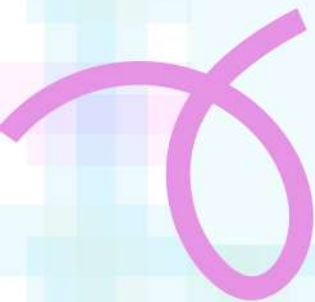

# *Sand Tracing Activity*

*Learning numbers through sand tracing. A fun activity to boost memory and motor skills. Children tried to trace number 2 in sand.*

# Fun on the Ground

*Our UKG students had a blast playing with balls on the ground! They laughed, ran, and threw balls with excitement, developing their motor skills and teamwork while having a great time with friends.*
